**HAMPDEN**

ESTATE

PURE SINGLE JAMAICAN RUM

AGED 8 YEARS

**The High Esters Art**

Produced using the same unique and secret methods since the 18th century. The result is a spirit with an unmistakable aromatic profile, thanks to a very high level of esters.

**Fully Matured in the Tropics**

Aging for 8 years in a tropical climate produces an angel's share equivalent to 25 years aging in Europe.

**Trelawny Endemic Rum**

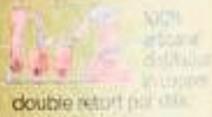

Trelawny is famous for its biodiversity.

In Cockpit Valley, its most remote area, there are 26 species of native Jamaica birds, the largest butterfly in the Western hemisphere, and the last Jamaican crocodiles. This rum, produced a few miles from Cockpit Valley using a centuries-old savoir faire, is unique and unreproducible anywhere else.

Extremely extended fermentation with natural yeasts

**Only Pot Still**

100% artisanal distillation in copper double reflux pot still.

**Spring Water**

Throughout the production process we use solely water flowing from a natural source, that collects into an uncontaminated reservoir.

There is no need to add anything to our rum's texture with no adulteration.

**HAMPDEN**

ESTATE

PURE SINGLE JAMAICAN RUM

HLCF CLASSIC

**The High Esters Art**

HLCF (Hampden Light Continental Flavoured) is the classic mark of Hampden. This release contains a rum with a congeners content of 3506.9 g/hlpa of which esters 415.9 g/hlpa.

**Fully Matured in the Tropics**

Aging for 4 years in a tropical climate produces an angel's share equivalent to 12 years aging in Europe.

**Trelawny Endemic Rum**

Trelawny is famous for its biodiversity. In Cockpit Valley, its most remote area, there are 26 species of native Jamaica birds, the largest butterfly in the Western hemisphere, and the last Jamaican crocodiles. This rum, produced a few miles from Cockpit Valley using a centuries-old savoir faire, is unique and unreproducible anywhere else.

**Wild Fermentation**

Extremely extended fermentation with natural yeasts.

**Only Pot Still**

100% natural distillation in copper double reflux pot still.

**Spring Water**

Throughout the production process we use spring water flowing from a natural source, that collects in an uncontaminated reservoir.

**Natural Colour**

There is no need to add anything to our rum. Beware with no macerated.

**No Sugar added**
